FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the fee guidelines for outpatient acute care hospital services.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 193 – Original payment decision is being maintained
 - W3 – Request for reconsideration

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. 28 Texas Administrative Code §134.403 states in pertinent part (f) The reimbursement calculation used for

establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register. The following minimal modifications shall be applied. (1) The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by: (A) 200 percent; unless (B) a facility or surgical implant provider requests separate reimbursement in accordance with subsection (g) of this section, in which case the facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 130 percent. (2) When calculating outlier payment amounts, the facility's total billed charges shall be reduced by the facility's billed charges for any item reimbursed separately under subsection (g) of this section. Review of the submitted medical bill finds no implants were included with this bill. Therefore, the maximum allowable reimbursement will be calculated based on Rule 134.403 (1) (A).

2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code L4386 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Payment for this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(d) (1). The fee listed for this code in the Medicare DMEPOS fee schedule is \$150.32. 125% of this amount is \$187.90. Reimbursement is the lesser of the MAR or the provider's usual and customary charge of \$92.00. The lesser amount is \$92.00.
 - Procedure code 73610 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. These services are classified under APC 0260, which, per OPPS Addendum A, has a payment rate of \$57.35. This amount multiplied by 60% yields an unadjusted labor-related amount of \$34.41. This amount multiplied by the annual wage index for this facility of 0.9657 yields an adjusted labor-related amount of \$33.23. The non-labor related portion is 40% of the APC rate or \$22.94. The sum of the labor and non-labor related amounts is \$56.17. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$56.17. This amount multiplied by 200% yields a MAR of \$112.34.
 - Procedure code 73630 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. These services are classified under APC 0260, which, per OPPS Addendum A, has a payment rate of \$57.35. This amount multiplied by 60% yields an unadjusted labor-related amount of \$34.41. This amount multiplied by the annual wage index for this facility of 0.9657 yields an adjusted labor-related amount of \$33.23. The non-labor related portion is 40% of the APC rate or \$22.94. The sum of the labor and non-labor related amounts is \$56.17. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$56.17. This amount multiplied by 200% yields a MAR of \$112.34.
 - Procedure code 29515 has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0058, which, per OPPS Addendum A, has a payment rate of \$100.21. This amount multiplied by 60% yields an unadjusted labor-related amount of \$60.13. This amount multiplied by the annual wage index for this facility of 0.9657 yields an adjusted labor-related amount of \$58.07. The non-labor related portion is 40% of the APC rate or \$40.08. The sum of the labor and non-labor related amounts is \$98.15. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$98.15. This amount multiplied by 200% yields a MAR of \$196.30.
 - Procedure code 99283 has a status indicator of V, which denotes a clinic or emergency department visit paid under OPPS with separate APC payment. These services are classified under APC 0614, which, per OPPS Addendum A, has a payment rate of \$166.45. This amount multiplied by 60% yields an unadjusted labor-related amount of \$99.87. This amount multiplied by the annual wage index for this facility of 0.9657 yields an adjusted labor-related amount of \$96.44. The non-labor related portion is 40% of the APC rate or \$66.58. The sum of the labor and non-labor related amounts is \$163.02. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$163.02. This amount multiplied by 200% yields a MAR of \$326.04.

3. The total allowable reimbursement for the services in dispute is \$839.02. This amount less the amount previously paid by the insurance carrier of \$939.11 leaves an amount due to the requestor of \$0.00. No additional reimbursement can be recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
